Web Developer

TebMik - Self Employed, Plymouth, Devon

- Analyzed requirements and designed, developed and implemented software applications for multiple websites and mobile apps.
- Implemented responsive, mobile-first approach which increased mobile traffic and sales.
- Developed user-oriented visuals and features using front-end languages, including HTML5, CSS3 Javascript and React, to increase site traffic and support marketing.
- Optimized markdown and web assets for speed and performance, resulting in higher user retention rate.
- Designed website to be compatable with top browsers including Firefox, Chrome and Safari.
- Established web hosting for clients and uploaded site files to hosting account.

Gallery manager and owner

House of Vestress, Hayle Cornwall

- Managing the day to day running of the gallery and website, coordinating artists and clients to ensure a profitable and creative business.
- Implemented marketing strategies which resulted in growth of customer traffic and product exposure.
- Evaluated existing operations and current market trends to identify necessary improvements and capitalise on changes.
- Managed aesthetically pleasing displays to showcase company products and increase sales.
- Used creative industry expertise, customer service skills and analytical nature to resolve customer concerns and promote loyalty.
- Delivered an exceptional level of service to each customer by listening to purchase objectives and finding the right products to excite clients.
- Drove business development by cultivating strong artist and supplier relationships.
- Implemented creative zero waste initiatives, which spread through the Gallery and inspiring others to do the same within the high street.
